Cyclonic Mist Eliminator

Cyclonic Mist Eliminator

- Mounted In-Line to the Ductwork
- Multiple Sizes Available
- Can be mounted Vertically or Horizontally (Downflow vertically is optimal)

Pre-Filtering Device

- Removes 85% to 95% of coolant before entering the mist collector
- Extends filter life dramatically, double filter life
- Allows coolant to be recycled directly back to reservoir
- Virtually maintenance free - NO MOVING PARTS

Eliminator Size	Recommended Airflow Range (CFM)	Static Pressure Loss
4"	250-600	1" of Water
6"	600-1000	1" of Water
8"	1000-1600	1" of Water
10"	1600-2300	1" of Water
12"	2300-3200	1" of Water
14"	3200-4000	1" of Water
16"	4000-5300	1" of Water
18"	5300-6200	1" of Water
